

CV REHABILITATION CENTER
LOS ANGELES

OFFERING

Respiratory Recovery

A PULMONARY SPECIALTY UNIT

BREATHE EASY

OUR MISSION

To assist each patient in their progress to reach an optimal level of health and independence by providing the most efficient and effective care possible.

UNIT FEATURES

- Technologically advanced environment
- 24/7 respiratory care
- Portable ventilators
- Regular on-site visits by Board Certified Pulmonologist

WE TREAT

- Respiratory failure
- Chronic Obstructive Pulmonary Disease (COPD)
- Tracheostomies
- Multi-system Organ Failure
- Cystic Fibrosis
- Ventilator management/weaning

OUR SERVICES

Offering a program that meets the patient's individual needs, Respiratory Recovery can help optimize patient management, and help patients achieve the maximum level of independence possible.

We offer individual respiratory rehabilitation programs including breathing exercises, physical therapy, ventilator management, and progressive vent-weaning programs. Our services include providing care for patients requiring BIPAP and CPAP therapy as well as tracheostomies.

Treatment is personalized and directed through an interdisciplinary treatment team of clinicians. These skilled individuals include:

- Board Certified Pulmonologists
- Registered Respiratory Therapists
- Nursing Professionals
- Recreation Therapists
- Occupational Therapists
- Physical Therapists
- Speech Language Pathologists
- Dietitian-nutritionist
- Social Worker
- Case Manager

This unit accepts Medicare, Private pay and all Managed Care Plans - in network with an authorization out of network with an LOA. We are currently unable to accept Medical short-term or Medical long term patients at this time as our unit is pending MediCal Certification.
